First Name - Christine

Last Name - Furneisen

Organization Name - Northwestern Community Services Board

Comment - It is my understanding that the Federal Government will provide 100% funding to expand Medicaid for the first three years and then drop down to 90% funding after that. This program would provide mental health coverage to many low income families who would otherwise not have access to care. It is vital for the health and safety of all that mental health coverage services be affordable and accessible.
