Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

We cannot afford to have so many members of our Commonwealth continue to have to face health risks, often putting treatable conditions off until they are highly complicated and costly or potentially life threatening, because they are unable to afford preventive care. The loss of productivity for our economy and the welfare of Virginia is profound. An emergency room visit made in lieu of an office visit costs our Commonwealth and loss in productivity many orders of magnitude more than the investment in good health maintenance would cost. Expand Medicaid to 400,000 fellow Virginians and help our economy and population develop and maintain more robust health and greater productivity.

Sincerely,

Dariush Liske-Doorandish
