Dear Medicaid Innovation and Reform Commission,

When I see opponents of the ACA say "We, (America), have the best health care in the world", they may be correct as to our health care itself, but it's only good for people who can afford it. You will never hear these people say, "we have the best health care SYSTEM in the world", because they know it would be a bald faced lie. A system that only is available to PART of our citizens is wrong, and to let these citizens die when they very well might live is a abomination to this country. The rest of the world laughs at us, as a few people who might get hurt financially, (the millionaires, and billionaires), because the ACA gives everyone health care, is what is causing these uninsured people to die. It's disgusting, and a embarrassment to our country.

Sincerely,

David Kent
