Comment - As one who has had employer-provided health insurance for 30 years, but went without until my mid 30's, I fully support the Affordable Healthcare Act. It solves so many problems, both with the quality of existing insurance programs (not to be cancelled due to illness, preexisting conditions not disqualifying) the medicaid extension will vastly improve the health of many millions across the country, and thousands in Virginia. It is a reform long overdue. The long term affect will be to lower health care costs, because so many people will be so much healthier.
