Comment - There are those who want to stop the ACA and there are those who want to cut Medicaid services. Do they know that most Americans, most hard working middle class Americans, can not afford to get sick? Do they know how many retired teachers can not afford to purchase needed medications? It is because of lobbying that insurance companies are allowed to run amuck and We the People, the working class People, are past being fed up! Don't you feel that? We need any and all the help we can get when it comes to healthcare and Medicaid in this country. If you are concerned of fraud within the programs, create more jobs by hiring more competent...'fraud busters'. Expand Medicaid for the good of the People, make it more accessible and affordable for the People. These are people we're talking about not promises or pieces of paper! People!
