First Name - Donald

Last Name - Lynch

Organization Name -

Comment - Expansion of Medicaid in Virginia will increase taxes on top of the big increase this year. The cost of living is increasing every year and wages go down. I have been a Virginia resident for 69 years and have seen what increasing taxes and larger government does to the economy. I believe all able-bodied people should have jobs. Those who choose to not work should be awakened to the fact that the gravy train has left the station.
