About file - Please recommend to expand Medicaid in our Commonwealth. I really don't believe that the ACA will be repealed so it's time to move forward to make sure low income folks can have access to health care. If you don't vote to expand, the hundreds of thousands of Virginians who will fall into the Medicaid Gap might just climb up and come knocking at your door (metaphorically). But really, once the application process begins on October 1 and folks are told they don't qualify for premium tax credits or cost reductions because they make less than the Federal Poverty Level? While folks like me, at 245% of the FPL will get Substantial cost reductions and a premium tax credit? This is nuts. Fill this Gap, get the Federal \$, figure out a way to fund the 10% in 3 years. Do your job.
