First Name - Dr. Teresa

Last Name - Gardner

Organization Name - The Health Wagon

Comment - As the Executive Director of the Health Wagon, a free clinic in far Southwest Va, I feel that it is imperative that we attempt to expand Medicaid in Virginia. I see daily the plight that those without insurance face. It not unusual on any given day that people here at my clinic face severe impairment to their health as a result of not having health insurance. Far too often, we see this resulting in death. We therefore implore you to consider expansion of Medicaid to some of Virginia's most disadvantaged population.
