First Name - Elizabeth**Last Name** - Lord**Organization Name** - Prince William County Public Schools

Comment - I am an elementary school teacher at Swans Creek Elementary in Dumfries, VA. Our school has many low income students whose families cannot afford to take them to the doctor when needed due to lack of health insurance. These children's learning suffers because of illnesses that should be treated. To improve the future of the entire state of Virginia, please expand Medicaid in our state so that more of our children can have the health care they need and deserve.
