**First Name** - Elizabeth

**Last Name** - Miller

**Organization Name** -

**Comment** - Expanding Medicaid is the right thing to do: fiscally, medically, and morally. Fiscally, because it is cheaper to treat people in the early stages of illness. Medically, because people who get treatment don't spread illness among the rest of us and have better outcomes in their own illnesses. Morally, because leaving people to hang in the wind based on their ability to pay for healthcare is unconscionable. Please adopt the Medicaid Expansion.
