**Comment** - I think it is imperative that we expand medicaid to include the 400,000 people below the poverty line who will otherwise not be included in the ACA. The idea of trying to work with them thru the private sector is ridiculous and won't work. ACA supports 10 basic services that ordinary private insurance does not esp. previous conditions. I thought Virginia was a caring state. Why can't we cooperate with the feds and somehow figure out how to take their money, abide by their rules and insure needy people. That's the whole purpose of the Act.
