**About file** - Expansion of medicaid in Virginia would necessitate an increase in taxes. We have already seen a tax increase just this year, and the cost of living is now so high, a lot of us would not be able to continue to live in Virginia. I have lived in Virginia for 56 years and have found it increasingly harder to make ends meet. I believe all able-bodied people should have jobs and the professional poor should be awakened to the fact that the gravy train has left the station.
