**First Name** - Greg

**Last Name** - Letiecq

**Organization Name** - [Private Citizen, Manassas VA]

**About file** - Unless the federal government is willing to make a sustained commitment to offset the enormous costs of this program it is unwise for Virginia to make such a commitment. Entitlements are already eating up a growing proportion of the biennial budget and this will vastly exacerbate the problem in the long term. Despite the noble intent here, additional entitlement programs or large expansions of existing entitlement programs are simply unaffordable for taxpayers.
