Comment - Thank you for the opportunity to express my support for Medicaid expansion in Virginia. We need to move beyond partisan politics to look for solutions to the increasingly unaffordable health care in this country because it ultimately affects us all in the pocketbook. Virginia has an opportunity to demonstrate leadership by using federal dollars to work with the medical establishment, businesses, and private citizens to improve the lives of all its citizens but especially those who have been thrown into poverty or near-poverty because of recent economic conditions. Yes, there are practical concerns which we must address but a can-do attitude offers us more than a "can't-do" one.

Re:
My support for Medicaid Expansion

Dear Chairman Hanger and Commission Members:

Thank you for the opportunity to express my support for Medicaid expansion in Virginia.

We need to move beyond partisan politics to look for solutions to the increasingly unaffordable health care in this country because it ultimately affects us all in the pocketbook. Virginia has an opportunity to demonstrate leadership by using federal dollars to work with the medical establishment, businesses, and private citizens to improve the lives of all its citizens but especially those who have been thrown into poverty or near-poverty because of recent economic conditions. Yes, there are practical concerns which we must address but a can-do attitude offers us more than a "can't-do" one.

Sincerely,
Hugh McElwain
