Dear Medicaid Innovation and Reform Commission,

I support expanding health care because I was once without health insurance. I had to quit school when I was 20 years old to get a full time job to have health insurance because my dad could not keep me on his insurance. I was also laid off from my job twice and could not afford COBRA for me and my daughter. You should want everyone to have healthcare because it helps ensure that the people around you are not sick and spreading diseases. It also provides mental health care to those that really need it.

Sincerely,

Jacquelyn Pryor
