Dear Chairman and Members of the Medical Reform and Innovation Commission,

I am writing this letter to ask that you take action to expand Medicaid in Virginia. In doing so, many uninsured individuals will have access to coverage that they need. Why would we send Virginia tax dollars to other states and not take advantage of federal money to expand Medicaid here in Virginia?

I am fortunate enough to be covered under Medicare, but there are many other Virginia women who do not have this opportunity. I urge you to stand up for Virginia women and their families and take action to expand Medicaid.

Thank you for the opportunity to submit comments.

Sincerely,
Mrs. Jean Busboso
