**First Name** - Jean

**Last Name** - Hearst

**Organization Name** - personal response

**Comment** - I strongly believe that Virginia should accept the Medicaid Expansion. When individuals have access to primary care through health insurance coverage, they as well as the entire health system benefits. Being able to treat an infection effectively or discover a treatable cancer in the early stages will not only save the patient, but also save health dollars for other needs. And, it is the right thing to do.
