**Comment** - Please expand Medicaid to those that are not eligible at this time. Too many people have to suffer due to not having health care. My children fortunately have Medicaid but my husband and i are not eligible. We cannot afford private insurance and cannot have subsidized care due to his work offering insurance. It is just too much for us to pay. My biggest fear is something will happen to us and without health care we would die and leave our children alone. I just ask for Virginia to help the people that are trying to support their families and give them a piece of mind.
