**First Name** - Jessica

**Last Name** - Stickle

**Organization Name** - working mommy

**Comment** - I would like to know why my income is low enough for Medicaid when I'm pregnant but not when I'm not pregnant? Also, I'm supporting my family of four. Why do my children qualify and my husband and I do not when I'm the only one working. My husband has been layed off for two and a half years
