First Name - john**Last Name** - callahan**Organization Name** - stone mountain health services

Comment - I respectfully urge state legislators to fully expand the Virginia Medicaid program. While I feel that the program, as it now stands, is being horribly abused, the expansion of the program would bring in citizens who might not otherwise qualify for Medicaid benefits. Working in a job situation where I see on a dily basis the abuse that dishonest citizens heap on the Medicaid program, I cannot help but feel that citizens on the perimeters of the Medicaid guidelines, as they now stand, deserve better treatment from a program that has allowed itself to be abused. Thank you sincerely for the opportunity to voice my opinion.
John Callahan
