**First Name** - Catherine

**Last Name** - Crary

**Organization Name** -

**Comment** - I am in favor of expanding Medicaid in Virginia so that those who will otherwise not be eligible for healthcare through the insurance marketplace will receive healthcare coverage. These are the poorest and the unemployed--people who need help the most. I am lucky enough to have excellent healthcare through my employment, but I am worried about those who are going to be left out--not only for their well-being, but also for the expense they will cost all of us when they they inevitably fall ill or have accidents.
