First Name - John**Last Name** - McGill**Organization Name** -

Comment - Expansion of another so-called "entitlement program" is the last thing we need in Virginia - or anywhere else for that matter. When will those who propose programs such as this realize that we cannot afford a government that wants to address every issue by taxing anyone who has anything at all to fund whatever the politicians think is "good." These things take away the incentive to work hard and save so that you can provide for yourself and your family; because in the end the government says you have something and think it is only right to give it to someone as they see fit irrespective of whether those individuals ever studied, worked hard, planned, sacrificed and saved in order to provide for themselves and their families. There is always a "means test" used to take, but never a genuine "means test" that is applied to those who are to receive. Continue to take away the incentives to work and save, and one day you will wake up and find that there is no one left from whom government can take.
