**Comment** - As a 35+ years educator who has paid into Medicaid, etc. for all of these years, I am appalled that Medicaid may be threatened. I have given of myself to the people of this country, and now I am being threatened with cuts to health care when I need it most. This goes beyond being unacceptable. I have relatives in Canada who tell me not to believe the rhetoric I hear describing their universal healthcare as a poor system, they tell me they are quite satisfied.
