**Comment** - As a nurse of 38 yrs, I see this medicaid expansion, aka healthcare reform as a terrible bill that has already cost americans jobs, forced Drs to choose early retirement rather than have to work under the reform laws that are sure to bring healthcare rationing. The cost of this bill to our country will be staggering and may force collapse of our overextended dire financial crisis now at hand- when labor, congress & senate members themselves have gotten exemptions for themselves, how can the rest of the working american citizens be expected to have to participate in such a bad reform bill? This reform offers nothing positive and everything to loose from the best healthcare system the world has had. Look at the failure in the UK's system to see what lays ahead for our country if we adapt this plan. God help us all.
