**First Name** - Kay

**Last Name** - Anderson

**Organization Name** -

**Comment** - As a proud Virginian it is my hope that we would not expand Medicaid or fund the ACA. I think Virginia should take the lead in insurance and health care reform. We should not become more dependent on federal program's but should put in place program's that are compassionate, effective and fiscally responsible. Expanding Medicaid blindly doesn't achieve this. Thank you.
