First Name - Kenneth

Last Name - Ehrental

Organization Name - Virginia Organizing

Comment - Unfortunately there are too many families and individuals that for no fault of their own lack adequate health care. Medicaid is the one program that can afford them some stability of health in their lives. Expanding health care to them by opting into the expansion will have three significant advantages. It would reduce the need for so many to use costly emergency care; improve the overall health in Virginia; and lead to increased employment in the Commonwealth.
