First Name - Lawrence

Last Name - Miller

Organization Name -

Comment - It is my understanding that over 400,000 people will be covered as a result of Medicaid expansion. The medicaid expansion will cover the ones in Virginia who need it most. Are we not called to care for "the lest of these." Selfishly it is said that Medicaid expansion will actually save Virginia money in the long run and our tax dollars will not be paying for expansion in other states while the poor in our state do not benefit. Also, the money that flows in to these people will mostly be spent in our state and therefore boast our economy.
