First Name - Lee

Last Name - Marciniak

Organization Name - Retired

About file - PLEASE, PLEASE, PLEASE!!! I beg of you to do your duty to protect Virginia and its citizens from the damage of this expansion of Medicare/Medicaid posing as "health reform". It will come back to haunt you when doctors will no longer be available to treat you as they do today. It's a fool's dream to think that the same program that you want to foist on us will not harm you, but history will repeat. You, too, will get old and there's no way to prevent it. You will also most likely fall ill and need treatment. What you create is what you will have to live with. And don't think that the elitism you seek will prevent retribution. This legislative poison pill will doom you as well as me and the answer may not be there for you. Believe it that this federal medical expansion will NOT behave as promised. It will rise up and bite you, too.
