First Name - Lisa

Last Name - Gingrich

Organization Name - my own American self

About file - My suggestion is that Medicaid be looked at first as it is, and how can it be fixed - I don't have specific suggestions, because I am not a health care professional nor expert, but it involves everything from immigration to preventing fraud, is not an easy issue, I realize this, but with responsible moral do-the-right-thing not what is politically expedient on either side, it can be done.
