**First Name** - Loreen

**Last Name** - Paiva

**Organization Name** - NAMI

**Comment** - Expand Medicaid to improve the physical and mental health care of Virginians to facilitate as many Virginians getting back to work if possible and not being afraid of their health care being taken away. Work with the working poor to assist them with obtaining preventative physical and mental health care. Find ways to provide more health care and less paper pushing in state/federal health care programs. Look at the number of free clinics in Virginia that need funding and staffing to provide health care.
