First Name - Lorraine

Last Name - Bratton

Organization Name - AARP

Comment - We need to expand Medicaid. Expansion will pump billions of dollars into the Virginia economy. We can not allow these monies to go to other states. The expansion will create much needed jobs in the health field - the jobs of the future. This would increase tax revenues for both the Commonwealth and local governments and help in meeting our transportation and educational needs. DMAS estimates over the next 9 years, Virginia would receive \$20 billion dollars and spend just \$137 million.
