Virginia Medicaid Innovation and Reform Commission
VA

Dear Medicaid Innovation and Reform Commission,

As a voter, a parent, and a concerned member of the community, I know that there are many people in southwest Virginia who are underserved in terms of employment and certainly in terms of health care coverage. Up to 400,000 Virginians could have access to quality health insurance under Obamacare, but right now a panel of Virginia legislators is standing in the way. The Medicaid Innovation and Reform Commission is deciding whether Virginia will expand Medicaid, a decision that would save money and lives. The ACA is the law of the land. Why let a minority radical voice in our state, put lives in jeopardy because of stupid, petty ideological differences? This is why voters are fed up with congress. This is why I will fight even harder to make sure that the people in this state get the care they need, deserve, and are legally within their rights to have.

Sincerely,

Margaret Breslau
