**First Name** - Marianne**Last Name** - Merilan**Organization Name** -

**Comment** - Although I am a working citizen and do not qualify for Medicaid but I have friends and family members in various ages that do. The limitations are way too limiting. Such as the income limit is too narrow. There aren't any room for the applicates income to grow. Maybe we can consider a program similar to the Famis program for kids but for adults. Oh and by the way, I'm very upset about that program being taken away as well. So please consider expanding the program and aid because it's needed.
