Medicaid Expansion

I am so opposed to this proposed addition to an already overburdened system. It is already taking far too long for all of us to even get an appt. to see our doctors. Now the waiting time will probably be up to 6 months. It already often takes 3 months to see a doctor. Health Care is not a right. It is something most of us pay dearly to have and our premiums will only increase with an annual additional cost of \$1.3 billion. This is not going to result in better care - only a reduced quality of care at a greatly increased cost. It doesn't even make any sense. Please find a better solution and say "No" to expanded Medicaid.

Many doctors are already fleeing the medical profession because of increased paperwork, slow payment even for Medicare patients. What kind of Country are we going to have with inadequate medical care for everyone? This proposed Medicaid Expansion is not an answer and will only result in many more problems and a disastrous medical system.
