**First Name** - mary

**Last Name** - player

**Organization Name** -

**Comment** - Virginia needs to expand Medicaid Program. Especially for elderly. When my parents were alive they did qualify for a lot benefit because their income was to high, however that was because state of VA set the bar to high for elderly. My parents did not have lot money, but because threshold set by the state made too much money and own property. That was a shame and shame on VA.
