Comment - Dear Richmond, Of course we have to take care of our vulnerable citizens by expanding Medicaid. Otherwise we are not civilized, and Virginia should be civilized. Period. I will not talk about how this is good for the economy- although it is- because some things you do as a community just because it is the right thing to do. Expanding Medicaid is the right thing to do. It is mind boggling that anybody would be against this. Trust me this is a big reason why Terry McAuliffe will be Virginia's next Governor. Other people are apparently all excited about the abortion issue. But when people ask me why-as a pro-Lifer- I support Mr. McAuliffe for Governor one of my top reasons, along with his support, for example, for community colleges, is his pledge to expand Medicaid. It is the right thing to do. Period. Sincerely, Monica Beaston
