First Name - Nancy

Last Name - Pallesen

Organization Name - Arlington Free Clinic

Comment - I am 100% in favor of expanding Medicaid in VA for two main reasons: 1) poor residents of VA should have access to the wonderful medical services the are available in our state - they should not be denied care just because they cannot afford to purchase it; 2) VA will prosper economically with federal money flowing into our state and new jobs being created for Virginians.
