**First Name** - Natalie

**Last Name** - Jackman

**Organization Name** -

**About file** - I am not for ObamaCare. It is nothing but a poor tax and for people who are out of work and cannot find work it opens the door to criminalizing the poor. What is worse is that if we as a individual lose our job and go into debt our ability to get a job in our profession dries up because now employers check credit reports of potential new hires. So then in effect if you anger the wrong person you don't just get fired, you lose everything and then get swept up into the unrecoverable void that is ObamaCare. This will destroy the middle class.
