**Comment** - Thank you for the opportunity to submit comments on the recent work of the Medicaid Reform and Innovation Commission (MIRC). I believe that the state must adopt the compromise language of the General Assembly and agreed upon by the Governor to expand Medicaid. This influx of federal dollars will be hugely important not only for those who are currently uninsured but as an economic driver for all Virginians. The costs of the uninsured are shifted to those with insurance, creating huge inefficiencies in our health care system. This is both a moral and an economic issue for the state.
