First Name - Patricia

Last Name - Larch

Organization Name - individual citizen

Comment - Expanding Medicare will help Virginians all across the state. It will put more money in the pockets of consumers, so they will have more money to spend elsewhere in our state. It will help Virginians in their healthcare, lives, and with their families. Expanding Medicaid is so important to all that live in our beautiful state. It will make our state even more desirable to live in, as it will have this expanded coverage. Thanks for your time and assistance in this matter.
