First Name - Robert

Last Name - McNichols

Organization Name - CSM, Inc.

Comment - The referenced expansion of medicaid will lead to higher taxes. Higher taxes will result in fewer jobs locating in Virginia and/or corporation leaving to go to states with lower taxes. It will cause small business to incur higher taxes which in turn will cause employees not to be hired or terminated. When the Federal Government reduces it's share of the expansion the state will be left with an ever increasing tax liability to support the program
