Virginia Medicaid Innovation and Reform Commission  
VA

Dear Medicaid Innovation and Reform Commission,

I have been a Registered Nurse in Virginia for over twenty five years. I have cared for people in the emergency department in my town, people who have chosen between food and prescription medications; people who have not seen their own physician in years, but have brought their sick baby in to see a doctor; the working poor, the Middle Class family, where both parents work two jobs just to try and stay afloat. On and on and on. Most of Americans are one step away from disaster, and a serious illness often pushes them right into it. If you represent ALL of us, then you must think of those who need help, before you think of those who are standing squarely on their own two feet. You must guard the welfare of the neediest first. Please make me proud to be a Virginia nurse

Sincerely,

Ruth Kaiser
