Comment - I urge the commission to expand Medicaid funding in Virginia to ensure that people like my son can have access to treatment for mental illness. I am a concerned citizen, and I care about the multitude of people who are not eligible for mental health care at this time. Expansion of Medicaid in our state would allow millions of adults who do not currently qualify for Medicaid to get life-saving services. In addition, our local Community Services organizations needs the Medicaid expansion in order to continue to provide an acceptable level of services in my county. I urge you to vote in favor of Medicaid expansion.
