First Name - Sofia**Last Name** - Blythe**Organization Name** -

Comment - My mother has pre-existing health problems, but can't qualify for disability or current Medicaid standards. She cannot afford monthly insurance, so if you fail to expand Medicaid, she will be forced to continue to rely on emergency rooms until she is 65. You are dooming her to a shorter life merely because she is poor. If you fail to pass Medicaid expansion, shame on all of you.
