**First Name** - Sonia

**Last Name** - Quinonez

**Organization Name** - SCAN of Northern Virginia

**Comment** - As an organization, SCAN of Northern Virginia serves as a voice on behalf of parents, providers and others in the Northern Virginia area whose daily actions make critical contributions to the well-being of children. Our organization's policy priorities include a statement that "promoting the social and emotional well-being of children is vital to their success so ensuring access to quality physical and mental health services is critical to a child's healthy development." Medicaid Expansion is an excellent deal for Virginia. Additional deferral of expanding Medicaid costs every Virginia taxpayer! We urge the MIRC to proceed on its findings to support genuine innovation and the expansion of Medicaid program in Virginia as quickly as possible.
