**First Name** - Tangee

**Last Name** - Moore

**Organization Name** - River City Comprehensive Counseling Services

**Comment** - It is vital that VA expands Medicaid across all cities and counties. As a mental health service provider we see clients in need of help daily who have been denied for Medicaid for various reasons or who have not understood their right in applying for this type of benefit. We need the expansion of Medicaid so the oppressed, vulnerable populations can see medical and psychiatric care that they need. As a Medicaid provider we are limited to the clients we serve and with this expansion our services for mental health care can help more.
