Dear Medicaid Innovation and Reform Commission,

As a retired social worker, we need Medicaid expansion and Affordable Health Care. I worked for the "welfare" department for 30 years and have witnessed what happens when individuals do not have money for basics and do not have health care. We voted for President Obama and with that win came the realization that the health care would come and benefit many citizens. It is time for us to unite and move forward.

Sincerely,

Teresa Bettino
