First Name - Teresa**Last Name** - Keller**Organization Name** - Professor

Comment - We need to help our citizens be healthy. Expand Medicaid in Virginia! Living on a small income is a constant struggle that legislators, lobbyists, and other wealthy people just don't seem to understand. We can afford anything we want to in this country: bailing out banks, subsidizing big companies and any war that comes along. Let's use our money for helping our own citizens who deserve to be able to see a doctor when they have a health problem.
