First Name - Tom

Last Name - Jackson

Organization Name - Private Citizen who works for a public healthcare agency

Comment - Let's keep it simple and put ideology aside and just focus on the economic and human aspects of expansion: 1. Per DMAS it's going to save billions over time to accept the federal money; and 2.) Not accepting it will mostly punish the WORKING poor who are under 133% of poverty - they will be charged "retail" rates by providers AND have no coverage.
