First Name - William

Last Name - Richards

Organization Name - Richards Engineering

About file - This legislation is going to cripple small business and directly impairs the ability to hire young employees due to the greatly increased \$\$ burden. The advantage to hiring older employees is starkly defined and discriminates greatly against the young employees. Basically, this is total amateurish incompetence on the legislative front, and will ultimately have the same effects as prohibition re under-the-table efforts to work around the "system". Unethical conduct will be absolutely rampant, and will create a new class of individuals disdainful of overall government incompetence. This is just another example of unintended consequences rising up to create yet another social disaster...perhaps of biblical proportions. May God save America from all of this silliness!
